## Anti Set-Off Powder Silux 35

Category: [Auxiliary Materials](#)

Availability: **estimated time of delivery 26.11.2024**

code: **381**

**Price: 0,00€**

Quantity: 1 kg, 3,5 kg

### Short description

**BöttcherPro Silux 35 is a high-performance spray powder engineered for use with conventional printing inks and water-based varnishes, making it suitable for a range of applications including subsequent laminating, coating, and inline coating with water-based dispersion coatings.**

#### Key Features:

- **Uniform Grain Size:** Ensures consistent application, enhancing flow properties and preventing spray nozzle clogging.
- **Smooth Finish:** Delivers a smooth finish with retained gloss, essential for high-quality printing results.
- **Low Build-Up:** Reduces the accumulation on blankets, promoting efficient operations in high-volume production.
- **Humidity Resistant:** Performs well in humid conditions without causing surface scrubbing, maintaining the integrity of the printed material.
- **Versatile Usage:** Suitable for all spray powder application systems and effective on printing materials up to 350 g/m<sup>2</sup>.
- **Health and Safety:** Formulated from vegetable starch, this gluten-free powder is safe for use, fine dust reduced, and approved by BG ETEM. It is also packaged in a user-friendly reclosable stand-up pouch for easy handling.

**Applications:** Ideal for printers who require a reliable and efficient solution for inline coating and subsequent laminating or coating processes. BöttcherPro Silux 35 is perfect for ensuring trouble-free processing with low consumption, particularly on substrates up to 350 g/m<sup>2</sup>, where high standards of finish and functionality are crucial.
